

Sound Matter!

Solid

- Particles vibrate but stay in place
- Represents music with slower motion.
- Adagio
- Trick – keep energy going to prevent sound from going solid.

Liquid

- Particles connected but move around (elevator)
- Often like legato
- Andante
- Trick – shape phrase so they flow like a stream of water

Gas

- Particles bounce around in all directions (Birds flying off tree)
- Allero
- Trick
 - Steady tempo
 - Agility and pitch accuracy
